

Learning About Halloween

On October 31st, many people celebrate Halloween. This year Halloween will be on a Wednesday. It's a school day with breakfast, lunch, and dinner. There are other things, though, that people will do just because it's Halloween.

On Halloween (or sometimes a few days before it), families may draw or carve faces or designs in pumpkins.

On Halloween, many people put on costumes for a while.

On Halloween, families may go “trick or treating” to gather candy and treats. Sometimes, people go to Halloween parties.

Some children and adults like to do scary-but-safe things around Halloween. Some children and adults do not want to do scary-but-safe things. This is okay.

Halloween is coming. My adults know a lot about Halloween. They would like to help me carve a pumpkin, put on a costume, and go trick or treating.
