

We Are Getting a Christmas Tree

We are going to have a Christmas tree in our house. We may need to move things around to make room for it.

Some Christmas trees are pine trees that grew outside. They smell like pine. Other Christmas trees are made in a factory.

Christmas trees are decorated with *ornaments*. Many people put a star, angel, or special decoration on the top of a Christmas tree.

My family is going to decorate our tree. Some trees have branches that are a little prickly. This is okay. Adults can help kids hang ornaments.

Sometime after Christmas, the ornaments will be put away until next year, and the tree will be taken down. Then we can move things back like they were before we put up the tree.
